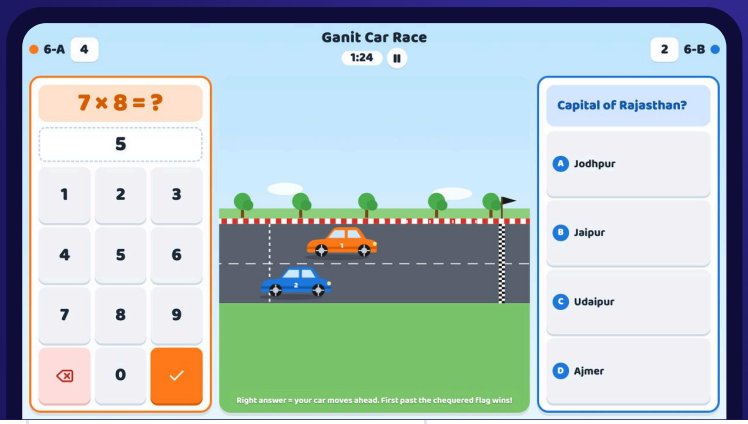
Turn maths practice into a classroom sport.

गणित को बनाइए कक्षा का सबसे पसंदीदा खेल।



2–4 teams
answer at once on one board

7 games
tug of war, boats, kites, cricket, cars, rockets, kabaddi

7 languages
English, Hindi, Punjabi, Marathi, Gujarati, Tamil, Bengali

Works offline
results upload later

Ready-made questions
Maths for classes 1–8 that never runs out, plus EVS/Science, English and general knowledge – or teachers add their own.

Children's phones too
In Phones mode every child answers on a phone and their team moves on the board. Fair for teams of any size.

Reports for the principal
Accuracy by class and topic, most-missed questions and a monthly report. Teachers see their own classes.

Parents stay involved
A private link per class shows the month's progress and questions to practise at home – never children's names.

Tournaments, houses, certificates
Knockout tournaments, house points across the term and printable winner certificates.

Revise what was missed
One tap replays the questions a class got wrong, until they get them right.

How to start

1
Free demo
at your school or on a call, with a real class.

2
14-day free trial
on your own boards.

3
Yearly licence
priced by the number of smart boards. UPI, bank transfer, cheque or cash, with a receipt.
